

Hello creative people,

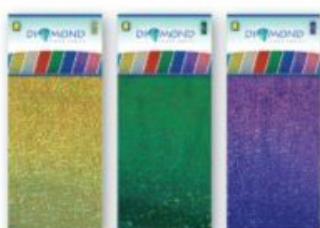

It's autumn, and it is getting a lot colder here in Holland. Before we know it, it is new year. Especially for this period Tessa made a beautiful autumn card made with the 6-pack peel-off stickers by JEJE Produkt code 3.9915 + 3.9903. The pattern you get for free in this mailing. Combine the peel-off stickers with light brown cardboard and design paper. Beautiful handmade cards can be made easily by yourself!

These sparkling colored adhesive sheets can be used with various molds and especially with an (electric) cutting machine. Use them for making Christmas decorations, for example, stick the foil on a wooden box and wrap it around, or use it as a background for winter and Christmas cards. The sheets are also great for temporary decorations on clothing, for example a children's play or party, Halloween or Carnival. Guaranteed success with all this glitter and glamour.
